

PlanCommand® Global AXS System Benefits for Contractors and Subcontractors

Can your company afford to be behind the curve in maximizing the benefits online plan rooms offer today? Are you ready to **empower your firm** with a better and more efficient way to **manage the online plan room process?**

A straightforward approach to online public plan rooms

- Individualized views of plans and project data allows contractors, subcontractors and perspective bidders to see the information they need anytime, anywhere, 24/7
- Organize project data in project specific files to maximize efficiency in project communications and manage valuable project assets

- Developed around an open-ended architecture allows an unlimited number of projects, customers and documents to be supported
- Project team members can be located in your office, down the street or across the globe

- No software to purchase or upgrades to manage

Tools in PlanCommand Global AXS put YOU in control

- Control access to sensitive data through password protection of posted projects

- Maintain a library of project specific files (operator manuals, photos and other files) for team member access
- Utilize built-in notification tools to reach out to bidders and also take advantage of the Blue Book messaging to access over one million subcontractors, vendors or suppliers
- Verify receipt and viewing by team members of important project notices and messages
- View and order prints right at your desktop, print at your local RSA or reach out to 175 other RSA member locations

Concentrate on today; Plan for the future — PlanCommand Global AXS

- The first of three products in a comprehensive PlanCommand product strategy designed to afford users a sensible and economical upgrade path according to their growing project needs
- PlanCommand Bid and PlanCommand, the other two products in the modular growth strategy, provide added functionality and tools for:
 - ✓ online collaboration
 - ✓ drawing comparison (previous/newest version)
 - ✓ mark-up and annotation tools
 - ✓ automated drawing revision/version controls
 - ✓ expanded bid management tools
 - ✓ and a whole lot more...
